38 W. SPRINGER DRIVE
HIGHLANDS RANCH, CO 80129

ONLINE PHARMACY RELEASE

Owner's Name: _____

Patient's Name: _____

Medication: _____

Date: _____

We understand that our clients want the convenience of having certain medications like heartworm prevention, flea and tick products, and chronically administered medications delivered to their homes. We further understand that in this economic climate, it is desirable to obtain medications affordably without compromise in high quality and safety standards.

There are many pharmacies on the internet who advertise the same products as Highlands Ranch Animal Clinic. We know that many of these products DO NOT come from the drug company that produced them. Often, we do not know from what source these pharmacies obtain their products, or how they are stored and shipped. Furthermore, the drug companies have informed us that any safety or efficacy guarantees they provide for their products do not apply if products are purchased from these online pharmacies.

We want to help you get the medications your pet needs in an efficient, safe, and cost-effective manner, and we want to help you make an informed decision regarding the right source for these medications. If after reading our information about online pharmacies you would still like to have us approve a prescription for your pet through one of them, here are some important things for you to know.

-Due to liability concerns, we will no longer be communicating directly with the pharmacy companies via fax, phone or mail. Instead, we will provide you with a written prescription for you to fill wherever you choose.

-Just as if you were refilling your pet's medications through us, normal refill and prescription expiration regulations will still apply, as will the examination/labwork requirements that are applicable to ongoing refills on some medications.

Thank you for your understanding, and please feel free to ask a staff member for more information. We will continue to work together with you to keep your pet healthy and happy!
